No 2537

Office of the Director of Public Instruction
Bangalore, 11th December 1878

From,

The Director of Public Instruction

To,

The Secretary to the Chief Commissioner
of Mysore

Sir,

I have the honour to submit for the sanction of the Chief Commissioner the Educational Budget Estimates for 1879-1880

2 Receipts The total of Rs 38000 entered last year has been retained, as it is expected that the estimated returns from school fees will be approximately realized as the effects of the famine disappear

3 Disbursements The total amount is Rs 2,46,000 against Rs 2,49,000 last year It will be seen that during the last two years the educational budget has been reduced by Rs 22000, an evidence of the extent to which economy has been applied to meet the present condition of the finances

24 The following is an explanation of the variations in the detailed items

A These items provide for the increments of progressive salary as sanctioned by the Secretary of State and the Government of India

B The figures are based on the actual charges, whereby a reduction is effected of Rs 3900

C Under Engineering School a provision was last year made of Rs 1200 for a 2nd Assistant, in accordance with C C O No. 8350-Ed 13 of 22 December last, para 5 - The appointment not having been filled up, and being now unnecessary, the amount is relinquished

Under Normal School an amount was provided of Rs 1852 This included the establishment &c of the Hindustani Normal School, and also of a so called Practising School The maintenance of the Normal School seems no

4

stations requiring Hindustani schools are now occupied I would therefore recommend the following arrangements, and have made entries accordingly

The Hindustani Training Master to be transferred, on his present pay of Rs 40, as Hindustani Munshi of the Central College, to fill the appointment created under C C O 9024-Edl 18 of 2nd December 1876, para 5, the provision for which is already in the budget and was expressly designed to provide for the instruction of Muhammadan boys, as stated in the Proposition statement submitted with my No 2745 of the 28th October 1876 I may remark that this seems a necessary provision, as the Muhammadans assign as a reason for the meagre attendance of their youth at our English schools, that there is no one to explain the lessons to them in their own language

As regards the
realt

I have therefore transferred the items connected with it to the College provision, as denoted by C

Of the few pupils now in the Normal School, those who are qualified can be provided for as opportunities arise The peon might be transferred to the Engineering School

D The item for purchase of books, maps, stationery &c has been reduced by Rs 4000, as exceeding actual expenditure

E Under Grants in Aid, an addition has been made of Rs 500 The grants actually in force amount to Rs 46710 The applications for new grants include one for a building grant of Rs 1393 to the Wesleyan Girls' School at Chikmagalur, and some minor grants to the extent of Rs 59 a month The amount available to meet these, supposing no existing grants are withdrawn or reduced, will be Rs 1340, out of which I would propose to grant the [illegible] in Mission (say) Rs 1000 building, and apportion.

6 the remainder, which may be increased by the falling in of some present grants, to the other applicants in such manner as may seem best at the time

5 Should alterations as contemplated by the Government of India be carried out in the Inspection staff &c, the total of the budget would be further reduced by about Rs 15000, others of the proposed reductions having already been brought into operation and the charges involved removed from the budget

I have the honour to be,
Sir,
